A product design specialist and innovation enthusiast passionate about smart products, user-centric design, and lean UX methodologies. I help companies to discover new opportunities, assess ideas, understand the user, and test their riskiest assumptions.

Ruslan is a fantastic user experience designer 🌟 — [Sándor Akszenovics](#), Product Owner (Lykon)

Specialties

Product Discovery and Ideation • Design Thinking • Lean UX • User Research • User Journey Mapping • Rapid Prototyping • User Interface Design • Storyboarding

Work experience

Senior Product Designer (contract) – [02/2018–08/2018]

Client: Quandoo

Category: Restaurant tech, marketplace

Leading discovery and design of a new product

- Conducted foundational research (B2C/B2B)
- Designed value proposition for B2C and B2B customers
- Designed experience maps and service blueprints
- Initiated and facilitated problem framing and ideation workshops
- Helped to define MVP and designed user flows

User Experience Designer (contract) – [04/2017–09/2017]

Client: Lykon

Category: Health tech, SaaS

Designed customer onboarding experience and helped to improve B2C product

- Conceptualized and designed user onboarding
- Mapped customer journey and designed user flows
- Defined personas and conducted qualitative user research
- Conducted usability tests
- Designed and validated prototypes

UX/UI Product Designer (contract) – [02/2015–08/2016]

Client: Wings and Roots

Category: Education, nonprofit

Designed educational interactive website that was selected by DOK Leipzig Film Festival and The New School exhibitions. Presented the project at GoogleTalks, YouTube, and Humanity In Action
